- Cosmetics Notification in Other Countries (EU, US, JP, KR, ASEAN, MENA, TW)

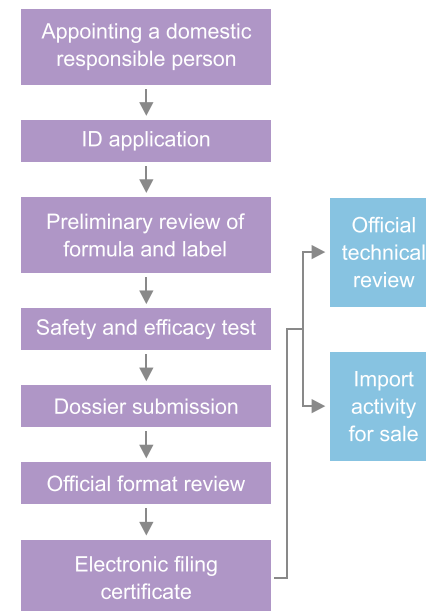

How to Successfully Export Cosmetics to China?

Step 1: Determine the regulatory requirements in terms of product type:

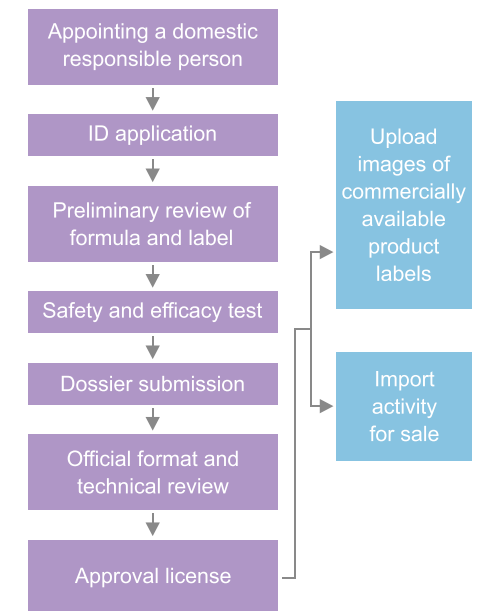

- 1) For common beauty soaps, they can be imported without the pre-market registration and filing;
- 2) Products with the function of hair growth, breast shaping or fitness will not be regarded as cosmetics;
- 3) Other products with the function(s) of anti-hair loss, whitening/anti-freckle, sunscreen, hair dye, hair perm, skin/body/hair/nail care, depilation/hair removal, deodorization, perfume, make-up, etc. will require pre-market registration or filing. This is mandatory through the NMPA or the provincial MPA.

Step 2: Pre-market registration, or filing, application with NMPA or provincial MPA if needed:

Ordinary Cosmetics

Special Cosmetics

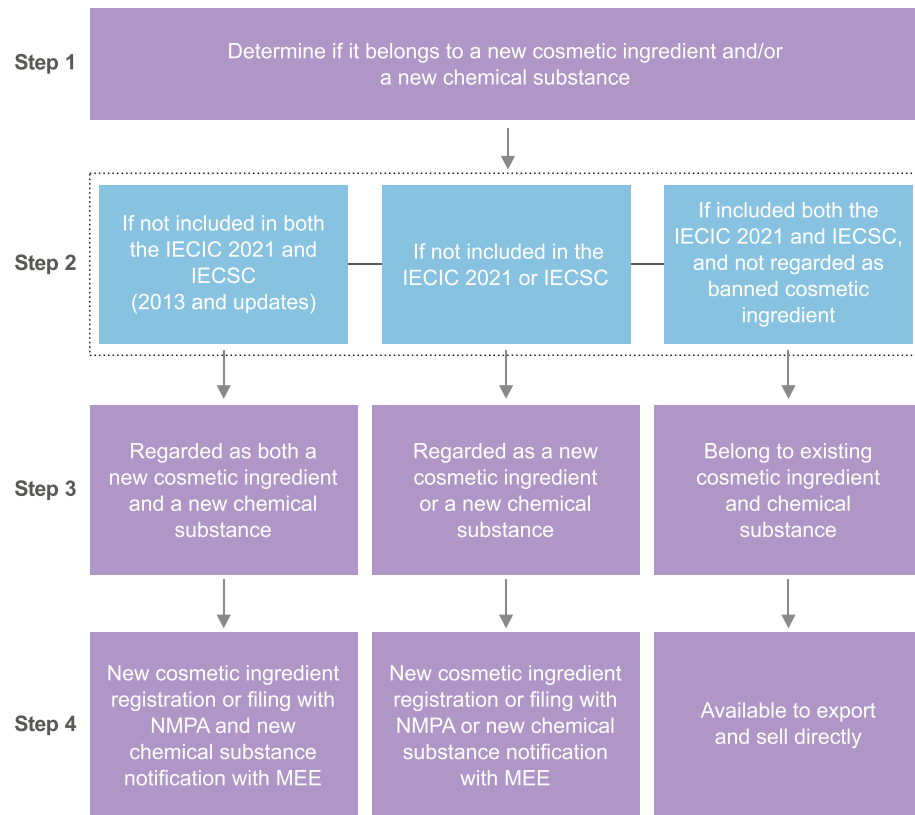

Step 3: Post-market surveillance:

Ordinary cosmetics: 1) Official technical review for parts of filed cosmetics; 2) Mandatory annual report beginning in 2022.

How can You Export Cosmetic Ingredients to China?

➤ Pre-market Regulatory Requirements

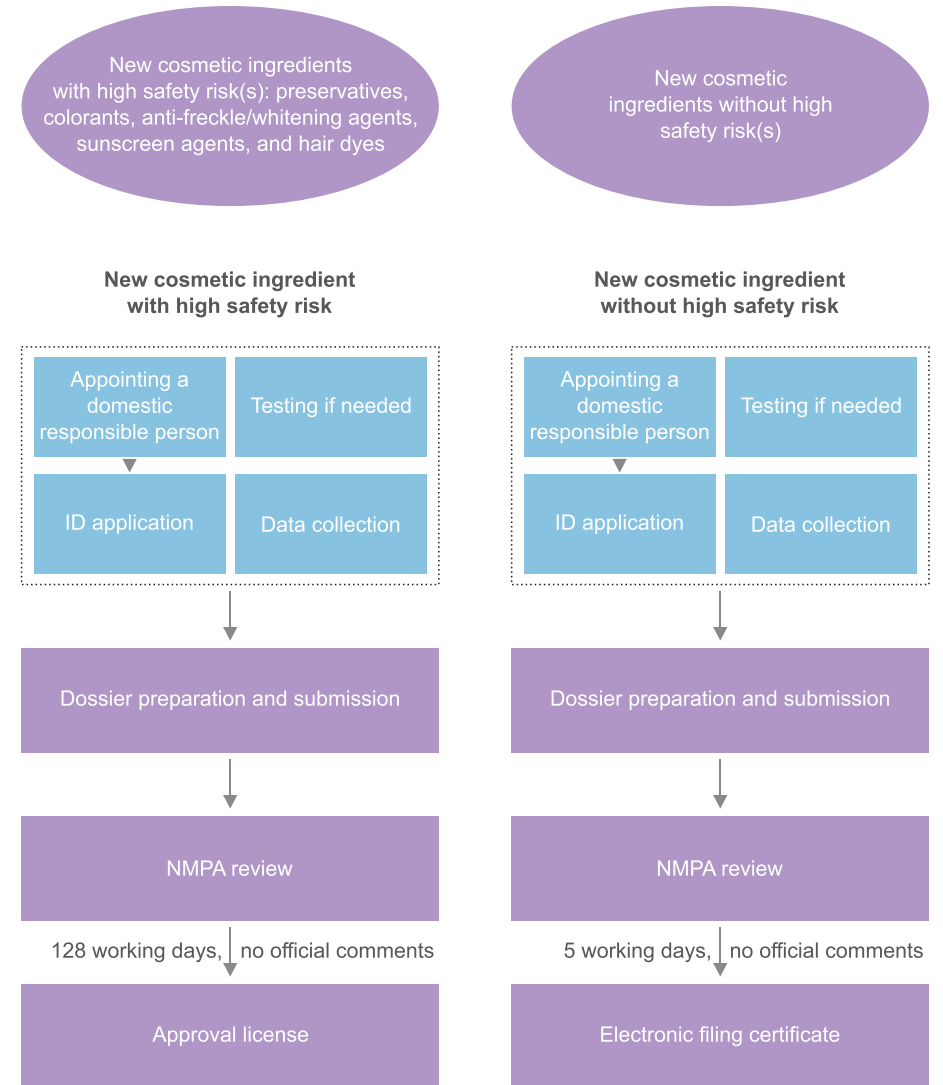

● Preliminary evaluation of cosmetic ingredients

Note:
IECIC refers to Inventory of Existing Cosmetic Ingredients in China;
IECSC refers to Inventory of Existing Chemical Substances in China.

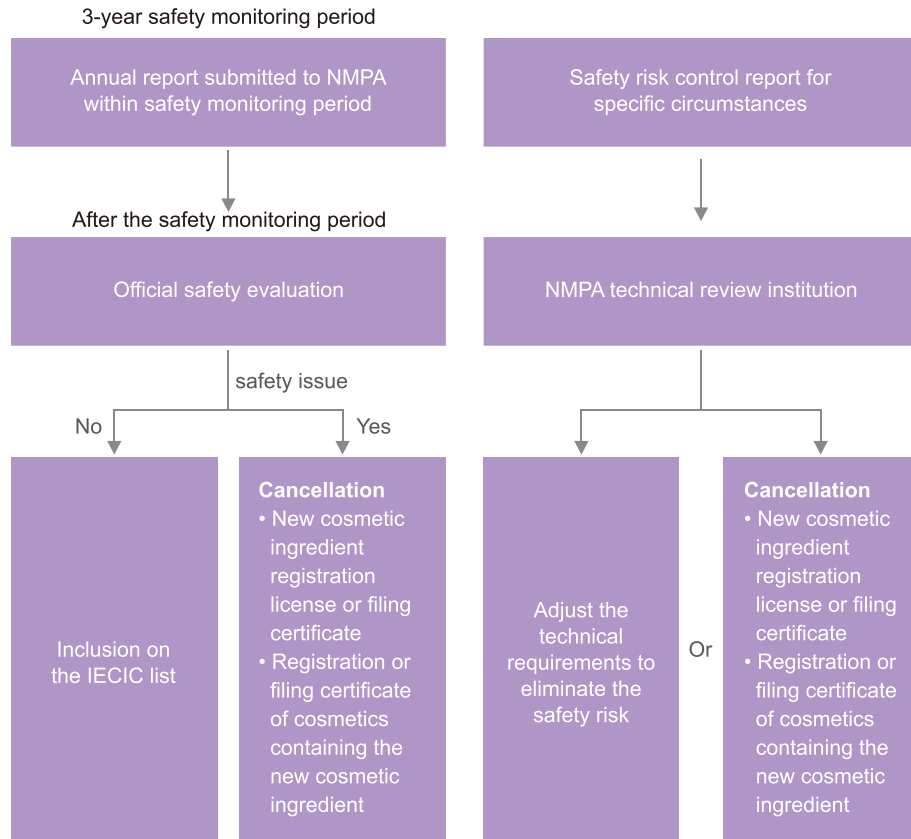

● Pre-market registration or filing process

There are Two Types of New Cosmetic Ingredients:

➤ Post-market Surveillance

● For approved, or filed, new cosmetic ingredient (s)

● For notified new chemical substance(s)

Required follow-up activities are dependent upon the notification type of new chemical substance(s), or a direct specification in the certificate issued, and required, by the authority

Why Choose CIRS

- Access to local advantages
- One-stop service provider for upstream and downstream cosmetics firms
- In-depth experience
- Safety and compliance
- Good liaison with government
- Short time to market
- Global network of partners
- Optimized and realistic budget
